OBJECTIVE

An undergraduate student with a strong academic background and a passion for technology. I aim to apply my skills in algorithms, data structures, and software development to contribute to impactful projects and solve real-world problems.

EDUCATION

Bachelor of Engineering, St. Joseph Engineering College, Mangalore 2021 - Present
Computer Science and Engineering, CGPA - 9.50

Pre University Education, Mother Teresa's PU College, Kundapura 2019 - 2021
Percentage - 98.6%

SSLC, Govt. Junior College Bidkalkatte, Kundapura 2018 - 2019
Percentage - 97.6%

INTERNSHIP

Web Development Internship at MotionCut Oct 2023 - Nov 2023
Completed a 4-week internship focused on learning HTML, CSS, and JavaScript, gaining foundational skills in front-end web development.

SKILLS

- **Languages:** C, Java, Python, PHP, SQL basics

- **Technologies/Frameworks:** Node.js, React.js, MySQL, MongoDB, Tailwind CSS

- **Developer Tools:** VS Code, Git, GitHub, Postman

- **Technical Skills:** Web Development, Rest API, Data Structures And Algorithms

PROJECTS

- **Artify - Node.js, React.js, Express.js, Tailwind CSS, MySQL**
  A platform where artists can showcase their artwork and connect with art lovers. Customers can browse and buy various pieces, while artists can manage their profiles and display their work.

- **SmartStitch - HTML, CSS, JavaScript, PHP, MySQL, XAMPP**
  A web platform to streamline ordering tailor-made dresses. Clients can provide measurements and place orders without visiting a tailor in person.

- **AgriChain - React.js, Node.js, Ethereum blockchain, Solidity, Web3.js, Ganache, IPFS**
  A decentralized application for farmers to sell produce, hire laborers, and access agricultural information to make informed decisions.
